DESCRIPTIONS ON BACK!

## 1st Floor Exhibitions

### A - Teeth in Popular Culture

Witness amazing teeth feats, marvel at unique cultural teeth traditions, trace what humans have done to their teeth and realize how teeth have made their way into popular culture for centuries.

### B - Origins of Teeth

Learn how your mouth compares to a shark or a horse. Analyze skulls from across the animal kingdom to figure out what they eat, if they have had more sets of teeth than you, and why every animal has a different smile.

### C - The Prevention Gallery

Discover how dentistry has changed from extraction to prevention, witness how personal oral hygiene has evolved, and revisit catchy dental product jingles on the world's only Tooth Jukebox.

### D - MouthPower®

Don your lab coat and learn the parts of the tooth, practice brushing and flossing on a larger-than-life mouth, explore healthy eating, and discover how tobacco harms your teeth.

### E - The History of Dentistry

From ancient cultures to modern dental offices, unearth the progression of the dental field and how people across cultures interact with their teeth.

### F - Celebrating Dental Education

Learn about the world's first dental college, and how dental education has grown to include various specialties and allied professions.

### G - Tools of the Trade

View a variety of artificial teeth, dental instruments, and oral hygiene aids from Edo period (1603-1868) Japan.

### H - American College of Dentists

Celebrate the history and achievements of the organization commonly referred to as the "conscience of dentistry."

## Museum hours

Tuesday through Friday

10:00am to 4:00pm

## Did you enjoy your experience?

## Become a member!

**A membership not only gets you benefits, but it helps support the museum so we can provide more and better experiences for you and everyone else that comes to visit!**

**Learn more about memberships and other ways to support the museum at [support.dentalmuseum.com](http://support.dentalmuseum.com)**

## 2nd Floor Exhibitions

### I - Greene Vardiman Black

Discover the history of the "Father of American Dentistry," and the impact of his work in dental education and on the field of dentistry.

### J - George Washington's Gallery

Discover what the first President of the United States had to go through because of problems with his mouth, and learn about Dr. John Greenwood, the man behind Washington's smile.

### K - The ADA Theater

Enjoy a variety of fun movies about oral health in our very own personal theatre. Watch iconic dental public service announcements, learn about different dental associations and organizations, and find out what it takes to be a dentist and have good oral health in our selection of videos.

### L - Your Spitting Image

Discover how the genetic secrets unlocked by the Human Genome Project are changing the future of oral health. Solve crimes and identify victims, see what's in your saliva, and understand how scientists might some day be able to grow replacement teeth.

### M - Changing Faces

Explore the history of the progress of diversity in the dental profession through this interactive exhibit.

### N - Drawing Teeth

Immerse yourself in a variety of artworks that share the artistic interpretations of the dental world and oral health.

### O - Marvelous Mouth

Explore how to take care of braces, how mouthguards protect your teeth, and why oral piercings and drug use can lead to various oral health issues and diseases.

### P - Terrific Tooth Tales

Our Reading Corner invites you to pick up your favorite tooth tale and take a moment to experience the joy of reading.
